HexaAI Products and Pricing 2026

Document ID: HX-PRC-2026 | Version 2.0 | Effective: July 1, 2026 | Supersedes: HX-PRC-2025 v1.3 | Owner: Revenue Operations | All prices in USD unless stated

1. General pricing rules

- All prices are in **US dollars (USD)** and **exclude taxes**. Indian customers are charged 18% GST; EU customers are charged VAT at the local rate unless a valid VAT ID is provided (reverse charge).
- Customers in India may be billed in INR at the exchange rate published by HexaAI on the first business day of each quarter.
- **Annual billing discount: 18%** off list price, available for HexaChat and HexaFlow only. It does not apply to HexaVision, HexaGuard or HexaEdge usage-based pricing.
- **Grandfathering:** customers who signed an annual contract before July 1, 2026 keep their legacy (2025) prices until their next renewal date. Monthly customers moved to the new prices on their first billing date on or after August 1, 2026.
- Prices may change with **60 days' written notice**. Price increases never take effect in the middle of an annual term.
- Payment terms: credit card for monthly plans; invoice with **Net 30** for annual plans above USD 10,000. Late payments accrue interest of 1.5% per month. Accounts more than 45 days overdue may be suspended after a 10-day written notice.
